

## **Generatum Software joined the Finnish Mobile Association**

Generatum Software Company, well-known developer of Wapalta and Alta Widgets mobile applications has received a special invitation to join the Finnish Mobile Association (Association of Finnish mobile). This is a unique and unprecedented event for any company.

Currently Generatum Software is the single Russian company in the Finnish Mobile Association.

Generatum Software CEO Igor Rodionov believes that "...membership in the Finnish mobile association not only provides direct business contacts to a number of key players in the mobile services market, but also increases significantly the international status of Generatum Software."

### **About Finnish Mobile Association**

Finnish mobile Association (FinnMob) advocates and helps Finnish mobile product and service developers. Being the most successful mobile cluster in the world FinnMob promotes its members, arranges events, and helps improve the visibility and success of the Finnish mobile industry.
